PRINCIPAL’S NEWS

It is hard to believe that the end of the school year has arrived so quickly!!

Each year’s end always brings with it a tremendous sense of accomplishment, and so many things have been accomplished at CHHS this year! From the colour and energy of the Swimming Carnivals near the beginning of the year to the Annual Awards Evening on Monday – our students have been involved in an extraordinary number of activities. Of course, we should not forget the tremendous amount of learning which has also taken place each and every day. Throughout all of these activities our students have demonstrated much enthusiasm, great dedication and strength of character!

As we approach the end of 2013, I would like to take this opportunity to thank you all for your help, support and interest. We have had another very busy and successful year and you, as partners in the education of your children, deserve much of the credit for that. Many thanks also go to our students, our student leaders, our staff, our SLSO’s, our SASS, our P&C and our broader community. It is the entire school community that helps make our school great.

If your family is leaving CHHS this year I would like to wish you all the best for the future. If you have students staying with us then I look forward to working with you all again next year to keep making this a fantastic place of learning.

On behalf of the staff, I wish you all a safe and happy summer vacation - see you in 2014!

Ms S Westman

COMMUNITY NEWS
COMMUNITY SPIRIT IN THE LIBRARY

I’ve been very appreciative of the willing helpers who volunteer in the library. Stocktake was made easier by Slade Sloane, Henry Jolly, Sebastian Litchfield, Beau Cunningham, Matt Coskerie, Emily Legge, Tim Craig, Gabriel Dick, Amber Nicholas and Bella Cicak. Melissa Cook, Tess Franklin, Bianca Neisler, Jacqueline Chillcott, Corrin Fardy & Carley Taylor have created festive decorations from recycled materials and Beau Cunningham, assisted by Emily Ryan, created our stunning Christmas tree from old books. Mrs James’ morning assistant, Theodore Howard, greets all morning borrowers with a smile! This great spirit of community makes our library a very special place.

HOLIDAY BORROWING

Please remind your student/s to return library books & DVDs as they finish with them so they are able to borrow for the holidays. Readers who have proven themselves to be reliable will be allowed to borrow extra books. The last day for holiday borrowing will be Tuesday 17th December.
PREMIER’S READING CHALLENGE

7C & 7A have commenced the Premier’s Reading Challenge for 2014. Any student who will be in Years 7, 8 or 9 in 2014 is also welcome to join. Of the twenty books participants are required to read, five are free choice. More details are available on the website https://products.schools.nsw.edu.au/prc/home.html.

Happy Reading
Mrs Rienstra
The Year 9 and 10 Marine & Aquaculture students led by Dr. Geronimi, have been very busy collecting data about plastic and other rubbish that end up on our beaches for the Scientists at the CSIRO. The students did surveys of Kylie’s Beach and Diamond Head beach (November 2013) and North Haven Beach (September 2013).

The amount of rubbish found on Kylie’s beach was quite alarming! We found lots of fishing debris ranging from full size polystyrene esky’s, bait bags, squidgies, fishing line, rope and glow sticks. We also found glass light bulbs, glass bottles, plastic bottles, toothbrushes, broken up pieces of plastic and kids’ plastic toys. We also found lots of dead Shearwater (Mutton Birds) which had plastic inside their stomachs. One had a plastic drink bottle lid inside it.

The information that we collected was put into a data base which the Scientists from the CSIRO analyse. They are trying to find out about the impacts of marine debris on our beaches, in the ocean and the effect that it has on the wildlife.

The photographs show the students in action doing transects along the beach, collecting the rubbish, having fun and some of the sad impacts plastic has on our wildlife. It is fantastic to see our students collecting information that will be used by the Scientists. The Scientists will determine the current state of our beaches and wildlife and inform governments about policies required for waste management.

So far over 270 species have been found to be affected by marine debris; from the tiny microscopic plankton to the top predators in our oceans. It is also estimated the 3.5 million pieces of plastic end up in our oceans daily!

So well done Camden Haven High School students! Thank-you Mr Mackiewicz, Mrs Koch and Mrs Lloyd-James for your help on the day.
This term the Year 7 Japanese classes are doing a unit on Japanese food. This week the Year 7 Japanese classes enjoyed getting involved in cooking one type of Japanese food. They made Japanese rice balls called “Onigiri”. They consist of Japanese rice, a filling – either chicken or tuna and mayonnaise, nori (Japanese seaweed) and Furikake (seaweed sprinkles). Students learnt how important rice is in the Japanese diet and some of the ways in which they use it in their cuisine.

7C students: Charlie, Heath, Charlotte & Rebecca.

Students also participated in the Creative Onigiri Competition. First, Second and Third winners can be seen below. Well done Year 7 Japanese classes in your effort this term!
The Student Representative Council (SRC) organised a very successful Pink & Blue Day for staff and students at Camden Haven High School (CHHS) on Thursday 21st November. Pink & Blue Day is an annual event the SRC initiated last year after a CHHS teacher lost her battle with breast cancer.

On Pink & Blue Day all students and staff were encouraged to come out of uniform in pink and/or blue. These colours support our major fundraiser where all money raised goes to men’s health and breast cancer research. The staff and students rose to the challenge set by their SRC and competed against each other in team sports such as netball, basketball and touch footy. It was very competitive and enjoyable. There were also activities such as the three-legged race, tug-o-war and handball to name a few that were participated in also. We had a new initiative this year with the activity of throwing a wet sponge at a teacher proving very popular. The last event of the day was a staff versus student Futsal match which is always well received.
The participation and enthusiasm of the students were fantastic – “looking out onto the oval and seeing a sea of pink and blue was fabulous” said SRC Teacher Mrs Wilson. It’s really rewarding for the SRC, after putting in so much effort, to see the staff and students participating and enjoying the afternoon. The SRC will have to put on their thinking hats to make 2014’s event even better. We live in a generous community with money raised on the day of $2000 which goes to cancer research.

BOOK PACKS

Bookpacks for Years 9-12
Available online from OfficeMax
Delivery to your door

Order by 31 Dec - $6.95 handling
From 1 Jan 2014 - $16.95 postage & handling

Link will be available on the school website soon
On Saturday the 7th Dec 2013 10 students attended the National Lego First league Robotics Competition at Macquarie University in Sydney. This year the theme was Natural Disasters, Nature’s Fury. The main team consisted of Jordan Potts, Samantha Kirkwood, Isaac Bruggerman, Bruce Cable, Max Wilson and Luke Mudge. There were a total of 31 teams competing from all around Australia. It was a great experience for all the students involved, meeting and competing against a variety of new competitors.

The team was required to compete in 4 categories, The Board Challenge, Core Values, Robot Design and Project Presentation. The team competed with gracious professionalism in all categories and where fine ambassadors for the school. The Board challenges where a frantic two and a half minute run trying to complete as many tasks as possible, the team had 3 runs with their third being the best. The Core Values question time went well with the group working together as a team to solve a possible Natural Disaster scenario. Robot design allowed the team to demonstrate how they developed their robot and created the programming to complete the board tasks. The Project Presentation was an excellent presentation by the students and was well received by the judges.

Overall it was an excellent trip and experience for the students and a special thanks to Mrs Lloyd-James for driving the students and teaching coaches Mark Ashton and James Langley.
On Wednesday the 4th of December, the year 10 students embarked on an epic adventure to Hat Head. In this ‘bear grills’ experience the students were asked to bring their own tents, consequently leading to a tent comprising of 15 boys in an 8 man tent. The girls on the other hand showed great mental aptitude and muscle, setting up their tents in record time. The meals were all made by the students, while the teachers feasted on stale buns and coffee.

While on camp we enjoyed snorkelling in the nearby creek. Cracking open oysters along the rocks and watching the fish eat from our hands. The rope swing also provided plenty of fun, Connor finding the highest point of the tree to launch himself from. Backyard cricket became an afternoon past time and campfire birthday songs at night. Overall, it was one of the most enjoyable trips I have been on.

Thankyou

Mr Fowler
FAREWELL THAÏS ALVES

Camden Haven High School will be farewelling the wonderful Thaïs Alves (pronounced “Taa-iiss”), a Rotary exchange student from Sao Paulo, Brazil. Thaïs has revelled in the opportunity of experiencing life in Australia, and has thoroughly enjoyed participating in the many experiences of a ‘typical’ 17 year old Aussie high school student.

Thaïs has lived with many host families whilst in Australia, including the Jackson family at Lorne. Naturally, she has completed much travelling while in Australia, visiting such iconic places as Uluru (where she was able to camp under the stars), as well as experiencing the beautiful beaches and tropical weather of Cairns, Nth QLD.

While in attendance at CHHS, Thaïs has studied English, Mathematics, Visual Arts, Photography, Biology and Society & Culture.

In terms of Visual Arts, Thaïs has proved to be a most competent and sensitive drawer and painter, producing some fantastic artworks throughout the year. She has been the quiet achiever of our class, always carefully working on tasks with focus and attention to detail. We have adored Thais’ presence, insights and contributions to both the Visual Arts and Photography classes. Thaïs also participated in the Pilot Station Project at Camden Head; whereby Photography students worked in groups to produce digital imagery representative of the historical aspects of this site. Her group submissions were outstanding.

Thaïs’ English skills (both written and verbal) are AMAZING; we are in awe of her bilingual abilities. Her warm smile, generosity and kindness have won her many friends and admirers at CHHS.

Year 11 Art students chipped in to organise some beautiful flowers and a very Aussie “Bureau of Meteorology 2014 Australian Weather Calendar” which we presented to Thais on December 5th in the Visual Arts lesson.

We will very much miss Thaïs’ presence going into 2014. ‘Til we meet again!

Miss Victoria Baylis

Visual Arts and Photography Teacher
FAREWELL HALIMA

Halima Wambui arrived to us from Kenya like a ray of sunshine. Since her arrival in year 7, she has blossomed into a bright, energetic student who we will be sorely missed. Halima has fitted into Camden Haven High so comfortably, making strong friendships with both staff and students. Her stay in Australia was certainly not wasted; she was involved in almost every extra-curricular activity, both sporting and academic, regularly representing the school in Public speaking competitions, debating and robotics.

She is a young woman of remarkable maturity and intelligence, approaching all tasks with enthusiasm and a determination to succeed. Halima has innate initiative and self-motivation, she is perceptive to others needs and is willing to render assistance whenever required, courtesy and respect have always marked her interaction with staff and fellow students. She has been a wonderful asset to the school. On behalf of the school we would like to thank Halima for coming into our lives and wish her the very best in the future.

Sincerely

Mr Fowler
Year Advisor
MEET THE TEACHERS

Year 7 Parents and Students

Please come along and
MEET THE TEACHERS

Thursday 13th February
2014

From 3.30 - 5.00pm

Where - CHHS Common Room

Please bring your son or daughter along

What will you get for your time?
• a chat with your son / daughter’s Year 7 teachers
• a free sausage sizzle (or a chocolate biscuit)
• a cuppa (or cool drink)
Dear Parents and Carers,

Uniform is a significant factor in building school pride and developing strong work practice and responsibility for our students who will eventually leave us for employment. In 2014, uniform will continue to be a focus for continuing to build on our positive school culture.

**School Uniform**

Full school uniform is required Monday, Tuesday, Thursday and Friday with the exception of Wednesdays where sport uniform is worn. Uniform requirements can be found in the school handbook.

**Sport Uniform**

To further encourage physical activity for our students, we are encouraging ALL students in Yrs 7-10 to wear their full sport uniform on Wednesdays. That means, students can wear their uniform all day, rather than changing into sports gear in the afternoon. This practice of wearing full sport uniform is **EXPECTED** in 2014. The Sports polo top can be purchased from the uniform shop.

**Excursions**

Full school uniform is essential when students participate in excursions. Uniform identifies us as a school and provides an element of safety when travelling. If your child arrives out of uniform, they will remain at school and not participate in the excursion. Students may **NOT** receive a refund if they arrive out of uniform. Longer excursions that are overnight will be decided by the Principal and coordinating staff regarding uniform requirements.

Students will be notified of the type of uniform required for the excursion. Sporting excursions such as carnivals and team events, beach activities etc will require FULL SPORTS UNIFORM. Other excursions will require students to be in full School Uniform, including shoes with leather uppers.

A lack of uniform results in our students looking untidy as a group and portrays a negative image of our school in the community. Uniform demonstrates respect for our school community and supports our value of doing your best. We encourage students to take responsibility for wearing uniform as part of their preparation for future workplace and career development.

If parents are facing financial difficulty, please contact the school so that we can assist families in organising both a school and sports uniform.

Yours sincerely,

Ms Meaghan Cook  
HT PDHPE
COMPUTER SCIENCE

We live in a world surrounded by technology. Information, commerce, communication, and entertainment all rely on computers. But only a tiny fraction of us learn computer science, the basics of how computers work, or how to create software, apps, or web sites. Computer Science provides a foundation for virtually any career and everybody can benefit from learning the basics.

Did you know:

- Software jobs outnumber students 3-to-1. The gap is 1 million jobs over 10 years- and these are some of the highest paying jobs.
- 90% of schools in the US do not teach computer science.
- In many countries, it’s required (China, Vietnam, Estonia. Soon UK, Australia)
- The basics can be learned by anybody, starting in primary school. But fewer than 10% of students try. Only 2% are women. 1% are students of color.

Programming literacy is going to be key to your child’s future. And this year we’re joining a massive campaign to prepare students for the 21st century during Computer Science Education Week (Dec 9-15). The Hour of Code campaign has an audacious goal: to introduce 10 million students to one hour of computer science. While your children will have the opportunity to participate at school, I encourage you to participate, in two ways:

1) As a student - set aside an hour in December to learn the basics yourself either at home or work.
2) In your community - the Hour of Code campaign isn’t only for students, and you can help introduce others in your community to computer science - whether in an after-school club, a church, a veterans group, etc.

See http://hourofcode.org for details. Sign up to participate!

Photo of DE students Nick Northam and Xavier Mcdermott working together on an “Hour of Code” at the Support Centre Taree, December 2013
“In fifteen years we’ll be teaching programming just like reading and writing . . . and wondering why we didn’t do it sooner.”

— Mark Zuckerberg

Try an Hour of Code for Computer Science Education Week December 9–15. Anybody can learn!

http://code.org

For more information, contact Mrs Lloyd-James on 65568153.
Jacob did exceptionally well at the Coast & Valley Championships Long Course held Saturday 30/11- Sunday 1/12. Jacob won gold in each of the 10 events he entered. Jacob also set 3 new records in the 50, 100, and 200 back. Jacob also recorded 7 new personal best times.

- 50 free –gold 25.72
- 100 free-gold 55.95
- 200 free-gold 2.04.80
- 50 fly- gold 28.41
- 100 fly – gold 1.03.20
- 200 fly – gold 2.23.56
- 200 medley- gold 2.24.20
- 50 back-gold and new C&V record 27.94
- 100 back- gold and new C&V record 59.79
- 200 back gold 2.10.73

Jacob also recorded 7 new personal best times.

Jacob has received an award from North Coast School Sport for outstanding achievement in swimming which is being sent to him.

Jacob received the award for his performance at School Sport Australia in Adelaide in September where he won Gold in the 50, 100, & 200 backstroke and set a new Australian record in the 50 backstroke. Jacob first broke the record in his leg of the medley relay in which the team won silver then broke his own record in his 50 backstroke event. Jacob’s freestyle relay team also won a silver medal. Jacob came 4th in a very tight finish in the 100 Freestyle.
TOTRONTO & BROADMEADOW SUPPORT CENTRES – Visit on the 26th and 27th November.

Two teachers Di Bernasconi and Katrina Navan visited Broadmeadow and Toronto Support Centres during Week 8. It was a very successful and busy visit with a number of students coming to participate and engage in their DE studies. Both teachers were amazed to see the change and growth in many of the students who actually attended. All of the students happily bought their work with them. They worked quietly on their own or sought tuition and guidance in a one on one situation with a teacher. Lots of friendships and support networks are formed so students feel safe in this environment. We would like to take the opportunity to say a huge thankyou to Kayla Dobling for her enormous efforts and support throughout the year. Thankyou PCYC and the Neighbourhood centre Toronto for opening your doors. Never short of a friendly face in either venue.

We would also like to take the opportunity to congratulate Brooke Izzard on her outstanding efforts and progress this year, Brooke has decided to continue her studies and is looking toward a future in Disability care. Maryanna Alsop too has great dreams and visions for her future and it is so exciting to hear how she would like to become a vet nurse and has actioned future plans to achieve this goal. We wish you every success Maryanna. We also would like to farewell a charming young man Tayliff Smith. Tayliff is moving onwards and upwards and pursuing an admin traineeship at Wandiyali for next year. He has developed many independent living skills and been such a pleasure to know and teach. We wish him every success.

Other students to welcome and who attended the support centre for the first time, Kurtis Heany and Mitchell Adamson. Welcome gentlemen. Also a huge congratulations to Jacob Sansom who was nominated for an Award from the North Coast Schools Sports Association - as a recipient of the North Coast Schools Sports Award for outstanding achievement in swimming. What a huge effort Jacob, well done from all of us here at Camden Haven High School.

There were a number of new faces and new enrolments students and parents and we welcome you to Distance Education, Amy Lees, Max Hall and Tobias Hudson.

We wish you a wonderful Christmas and a safe and happy holiday period and look forward to seeing all your bright and budding faces again in the New Year.
CAREERS NEWS

YEAR 10 RoSA GRADES

The Record of School Achievement or RoSA is the credential that formally recognises your school achievement if you leave school before completing your HSC. Year 10 have been provided with grades and these have been recorded on their RoSA.

Students will have access to their eRecord with these grades on the NSW Board of Studies website via “Students Online” on December 11 - http://studentsonline.bos.nsw.edu.au/ . Students will need to login with their 8 digit Board of Studies Student Number and their 6 digit PIN (emailed to them earlier in the year).

You can generate a PDF eRecord to save, print and/or email by clicking on the “Request eRecord” button found on this screen. Once requested your PDF eRecord will then be delivered to your My Details > My Messages section of your account.

An email with all these details is being sent to every student by the Board of Studies as well.

Anyone who needs help with accessing their eRecord is more than welcome to come and see me and I will assist them.

Dave Gray
Careers Adviser
SPORT NEWS - 2014 SWIMMING CARNIVAL

Year 9, 10, 11 and 12 on Tuesday 4th February 2014 at Laurieton Pool.
Year 7 and 8 on Wednesday 5th February 2014 at Laurieton Pool.

The aim of the carnival is to involve as many students as possible in friendly competition.

Students may make their own way to the pool and arrive between 8.30-9.00am. Normal school buses from Laurieton/Dunbogan/North Haven will drop off students at the pool on Tuesday and Wednesday. Buses will bring students to the pool from the school if students cannot make other arrangements.

At the conclusion of the carnival on both days students may make their own way home from the pool (A note is required from a parent/guardian). Buses will be available to bring students back to school to catch their normal school bus home if they cannot walk from the pool.

Normal lessons will occur on Tuesday 4th February for Years 7 and 8.
Normal lessons will occur on Wednesday 5th February for Years 9, 10, 11 and 12. Students in Years 9 and 10 will participate in school sport.

A note is required from a parent/guardian if a student is not to enter the water or if there are special conditions that relates to the students safety during the swim carnival. (please send this note to Mr Dalton before the carnival day).

A note is required from a parent/guardian for a student to remain at the pool after the carnival (If there is no note then students must leave the pool). The note will be collected at the end of the day.

Remember:
- Wear sports uniform or house colours
- Wear sun protection appropriately (hat, sunscreen, T shirt, sunglasses etc) There is to be no excessive zinc colouring on bodies please.
- Enter as many events as possible
- Enjoyment through participation
- Normal pool entry $2.50
- The SRC will provide a BBQ and drinks so please be prepared and have some additional money

Parents are very welcome to come and watch at any time during the carnival. I would ask that no parents collect students early from the carnival. This year, some students rang their parents to collect them early, however the Carnival had not finished. I ask parents to support us in encouraging students to participate ALL day.

Please note the following dates for School swimming representation in 2014.

<table>
