We are now at the end of Term 3, which means that this begins an exciting and busy time for all our HSC students. As I write this they are counting the days until Skirmish, the Graduation Assembly, their HSC examinations and the formal.

As we go through this busy and exciting time it is as important as ever to have conversations with your son or daughter about their sense of stress and/or excitement about the completion of their schooling, the exams and venturing into the future. If you feel that your child’s stress is at an unhealthy level please contact the Year Advisor / Year Coordinator / Stage Deputy Principal or School Counsellor. There is always someone who can lend an ear and offer support and guidance. I would like to take this opportunity to thank the students, staff, parents and community for what has been a fantastic term! We have participated in numerous events, undertaken a myriad of activities and shared abundant experiences - in short, we’ve done stacks of stuff! Thank you to everyone who has played a role in supporting the students in one way or another.

Mrs Hutchinson has accepted another term at District Office and we wish her well there for the rest of the year. To that end, I will remain as relieving Principal. Please do not hesitate to make contact with the school if you have any suggestions, ideas or thoughts as to how we can continue to maintain our high level, quality teaching and learning. Please have a safe and enjoyable holiday. I look forward to working with you all in Term 4 and good luck to all those students undertaking their HSC examinations.

YEAR 7 TERM 4 SPORT

COMMUNITY NEWS
During Terms 3 and 4, the Year 11/12 Photography students were invited to collaborate with Camden Haven Community College on a sponsored/funded project to capture the historical significance, natural beauty and community benefit of the Pilot Station at Camden Head to our local area. By participating in this project, our students have the added opportunity of gaining recognised accreditation in a number of specific modules offered through the Community College. This term’s focus has been on Digital Photography.

The students transformed into smaller groups to capture significant aspects of the Pilot Station and its surrounds, namely the homestead and boathouse, the coast, local rock formations, the historical graves, plus local flora/fauna in the area. Students spent a full day finalising their various projects. Students were asked to capture 10 – 12 images per group documenting their chosen focus. I invited a handful of keen junior students to join us as ‘models’ for the day. The students utilised retro clothes, jewellery and props on their various historical projects.

The results have been fantastic! Both Kyna Waite and myself are simply so proud of all students who attended yesterday’s excursion. All were motivated, professional, polite and willing to take advice in relation to their projects. All senior students made the junior students feel welcome and valued – a true exercise in positive teamwork.

Thanks to both John Casimir and Ken Healey who kindly bussed us to Camden Head and, on occasion, cooked us a delicious BBQ on site. Many thanks also to Kelly Miller and David Hamilton who did most of organising and administration proceedings.

Ms Victoria Baylis

VISUAL ARTS TEACHER
This year we had a team compete in the Maths/Engineering challenge run by the ‘Tournament of Minds’ organisation. We were the only Public High school competing in this section with teams from the region such as St. Paul’s High School and St. Columba Anglican School. The team did a solid job on the day, even though they were very nervous.

The Tournament of Minds (TOM) is a problem solving programme for team of students from both primary and secondary years. It is an international competition that aims to enhance the potential of our youth by developing diverse skills, enterprise, time-management as well as working collaboratively within a competitive environment.

Our challenge was to create a machine that would make a sound at set times as well as present a play that would incorporate the sounds within it. The team had five weeks to prepare and did an awesome job on the play and machine. We are hoping to see more students take this opportunity next year. I would like to thank students for their great motivation, focus and enthusiasm and the support of their families as they travelled to Coffs Harbour for the Sunday.

A big thanks to Nathaniel and Aaron Bruggemann, Emily Legge, Hudson Macindoe, Luke Mudge, Max Wilson, Jordan Firth and Griffin Ferguson.
Risk-taking in adolescence it is an essential part of learning and personal development. Every healthy adolescent takes risks as he or she grows towards independence. Most researchers agree that if there is no risk there is no growth. A common problem for some young people is their inability to evaluate the potential risks and consequences of everyday behaviour. Thrill seeking, speeding, the desire to impress one’s friends; feelings of invincibility and the search for new experiences are all motivating forces that drive many teenagers. As a result they are over represented in every category of risk taking resulting in injury and trauma.

The RRISK Program aims to reduce risk-taking behaviour associated with alcohol and drug use, driving and partying amongst year 11 students in the North and Mid North Coast of NSW. RRISK is relevant to the social life, developmental stage and concerns of adolescents. It extends the school based drug education and road safety curriculum by providing opportunities for senior high school students to develop knowledge, attitudes and skills to reduce risk taking and develop safer celebrating strategies.

Over 4500 students from more than 59 high schools from Port Macquarie to Tweed Heads have registered to attend one of 10 RRISK Seminars. This year, two additional seminars will be held in Port Macquarie and Kempsey to meet the growing demand. If you have a year 11 student in your family, encourage them to attend.

Research shows that RRISK is effective in reducing young driver crashes by 44%

The largest study ever undertaken into young driver behaviour was conducted by the George Institute of International Health and published in 2009. RRISK was identified as the only program to have resulted in a 44% reduction in road crashes for participants. The researchers consider RRISK a best practice program because it builds resilience by equipping young people with strategies and practical skills to manage risks in their social life and on the roads as drivers and passengers.

Look for information about the RRISK Program on the RRISK website www.rrisk.com.au and in this newsletter over the coming weeks.
Students who intend sitting the Higher School Certificate Examinations in October/November 2014 are able to obtain Disability Examination Provisions if they require them.

The Board of Studies’ Disability Provisions Program provides assistance to students identified as experiencing difficulties under examination conditions. Provisions may be provided for students with a learning difficulty, physical disability, illness, hearing impairment, vision impairment and/or psychological illness.

The purpose is to provide practical support such as a reader/writer, extra time or breaks for students sitting the examinations. The Board requires an application form to be lodged for each student wishing to be considered for Disability Provisions.

Any Distance Education student who thinks they may need provisions should contact Ms Angela Atkins on 6556 8207. Any face-to-face student who thinks they may need provisions should contact Miss Sami Dunk on 6556 8221.

If you have any further enquiries please contact Miss Sami Dunk or email sami.dunk@det.nsw.edu.au

On Friday 6 September a group of Year 7 students went to Kempsey for the day. They left early on the bus and headed off for a fun filled day of sport. The day was organised by Mr Dalton as part of the Lower North Coast School Sport.

The aim of the day was to get to know other students from the region in a non-competitive environment and the students made lots of new friends. The teams included girls’ soccer, boys’ soccer, mixed t-ball, netball and boys’ and girls’ touch football. Teams played against Wauchope, Melville, Kempsey, Nambucca, and Bowraville high schools.

Some Year 10 students also travelled with the group and assisted by umpiring the games. Rob Schouten, Ms Schmidt, Mr Mandrioli, Mr T and myself all enjoyed the day with students who were well behaved and many showed excellent sportsmanship.
TOM LEWIS WINS TWO GOLD!

Tomas Lewis (Year 7) competed in the Australian All Schools Cross Country Championships at Launceston, Tasmania, on 31 August and 1 September, winning two Gold National medals. He was selected to represent NSW in the 13 years age division over the two day carnival. Tom's gold medals were won in the 13 years 3km team event and 13 years 5 x 1500 metre relay.

Congratulations Tom on these outstanding Cross Country results - our school community is very proud of you.

Tom pictured centre on the podium with his NSW team mates
2013 has seen a new and innovative program added to Year 8’s curriculum. Students have undertaken project based learning – a practical way to develop life and employability skills. The importance of developing communication, team building, problem solving and organisational skills at a young age is well documented and this program aims at developing these skills. The program uses a combination of individual and group work, technology and practical tasks which aims to show each student the importance of their contribution to their school, community and family.

As a result of this program, a group of Year 8 girls designed and created some fabric toys. Annaliese Allsop, Kate Tweddle, Tahlia Coulton and Molly Fraser came up with the idea of creation of these toys and then to supply them to the children at the Port Macquarie Base Hospital Paediatric Unit.

On Monday 9 September these girls travelled to the hospital with their teacher and presented their final products to Cheryl Nolte, Nurse Unit Manager at the Port Macquarie Base Hospital Paediatric Unit. The girls also had an opportunity to present a toy to one of the patients which was fantastic as they saw a real life use and appreciation for their efforts.

WE NEED YOUR HELP TO HELP OTHERS

Camden Haven High School is inviting students in Years 7-11 to volunteer for Reader/Writer training in Term 4. This fantastic opportunity will allow students to gain recognition of service for the school and will also include a thank you morning tea at the end of each term. Students that have comprehensive reading and writing ability are encouraged to volunteer. Anyone wanting more information should see Miss Dunk before the end of this term.
Dear Parents,

You may be aware through recent publicity of problems being experienced with under aged drinking within the local area. Whilst these incidents are occurring across the Hastings Valley, Lighthouse Beach, Port Macquarie and Pilot Beach Dunbogan have been prominent locations for this type of activity which is occurring mainly on Friday and Saturday nights.

Police are not against young people having fun, and it is important to acknowledge that the majority of young people do not create problems, however when this activity impacts on other residents through criminal and anti-social behaviour, it does become a police matter. As well as being illegal, consuming alcohol by people under the aged of 18 places them at increased risk of harm from accidents, physical attacks and sexual coercion. As police, we see the ramifications of these situations on a regular basis with some of these having life long consequences.

The high level of mobile phone and social networking of young people has also led to rapid build ups of groups, with gatherings of 100 or more young people coming under notice of police. It is also believed that mobile phone ownership may have reduced the onus on parents to validate where their children are staying or what they are up to, due to the fact they can be contacted at any time.

It is in this regard that we are seeking your assistance. We would encourage you to discuss the issues around alcohol with your children including the legal ramifications and the risks of harm. We would also encourage you to discuss appropriate behaviour and respect for other people and property. Finally, we would encourage you to ensure that you are aware of (and check) where your children are late at night and into the early hours of the morning.

Police from across the local area will be targeting this problem with increased patrols, notification to FACS for juveniles found under the influence of alcohol in public places and legal action for supply, under aged possession and consumption of alcohol.

If you would like any further information, the web sites below are a valuable resource, or you can contact the Mid North Coast Crime Management Unit.

http://www.whatareyoudoingtoyourself.com what are you doing to yourself when you binge drink?
BLOOD DONATION VOLUNTEERS REQUIRED

Over the past twelve months Camden Haven High School students and staff have been contributing frequently to the Red Cross Blood Service with donations of blood both at the school and at the site office in Port Macquarie.

We have been fortunate enough to have the Red Cross visit here once a term, allowing students and staff the opportunity to donate blood and we are looking to extend this invitation to our wider community. We hope you will join us and help us save lives.

People aged between 16 and 70 (weighing over 45kg) are eligible to donate. The donation itself takes between 5 - 10 minutes and can help in saving up to three lives. Sadly, you are restricted from donating if you have had a tattoo in the last six months, are pregnant, have just given birth or if you lived in the UK for a total of six months between 1980 and 1996.

Most of us should be able to roll up our sleeves and help do something. Many of our students and staff are regular donors. Staff member Cheryle Barker has donated blood over 175 times. This means that the Red Cross has been able to help over 500 people from her donations alone. Thank you, Cheryle.

If you are interested in making a blood donation and you fulfil the donation requirements (outlined in the information package) please contact the school for more details about donation dates.

For an information package please contact Mr Todd Dalton who will email you one, or alternatively please access the Red Cross Website at http://www.donateblood.com.au/ for a copy. We look forward to you helping us save lives!

HUNTER REGION SPORT AND RECREATION HOLIDAY ACTIVITIES

Hunter Sport and Recreation activities are taking place this holiday - amongst the events on offer are:

- A Parkour clinic in Newcastle on September 23
- A two-day tennis development camp in Mount Hutton on October 1-2
- Cricket clinics in Charlestown, Forster, Taree, Thornton, Toronto, and Raymond Terrace from September 25-27
- Gymnastics Clinics in Scone
- Athletics clinics in Merriwa and Dungog

Expanded details for each clinic can be found on the below link: http://www.dsr.nsw.gov.au/active/whatson.asp?region=hunter

Bookings can be made by calling 13 13 02
SRC NEWS

BACK TO THE 90s!
Tuesday 27 August saw another successfully run social by the SRC. This was Year 12’s last social and the vibe was fantastic. Year 12 ran a sausage sizzle before the social and it was a nice atmosphere for the staff and students to come together and relax. It was then into the MPC and onto the dance floor! DJ Corez played great music and had some special lighting on stage which really added to the ambience. The SRC organised a place to securely store personal belongings so students didn’t need to worry about these while dancing the night away. A small canteen was also run where we sold the essentials such as water and just a few sweet treats for energy. It is always great that the staff give up their time to supervise the event. A huge thank you from the SRC to the teachers and other staff that help us get these events off the ground.

SRC ELECTIONS
On Thursday 5th September SRC members assisted the school in running the elections of our school leaders for 2013/2014. This process is carried out similarly to how the voting process is carried out in the community. The SRC do give up their time to do these things for the school and its students and always have a bit of extra work to do in catching up when they return to class! However they do it and do it well. Term 4 will see a new term for the SRC.

R U OK DAY
Thursday 12 September saw our final out-of-uniform day for Term 3 as we celebrated ‘R U OK Day’. This cause is close to some of the students’ hearts at this school and a special request was put in by a student in Year 11 to acknowledge this day. It really is important that the student body knows the SRC will do everything it can to support requests made. We dressed up in yellow and orange and were encouraged to ask our friends or others we may know that are doing it tough if they really are OK and if they need any help we might be able to give.
SASS RECOGNITION WEEK

In Term 3 schools celebrate SASS (School Administrative Staff Support) Week celebrating the contribution SASS staff make to their respective schools.

Along with a much appreciated morning tea, SASS female staff received flowers, each with a personal card from the relieving Principal, Ms Westman. The male staff SASS members each received chocolates.

While it is SASS Week, the SASS staff would also like to recognise the contributions of the teaching and executive staff which makes working at Camden Haven High School a great experience.

SUPPORTING YOUR FRIENDS

Camden Haven High School has been invited to participate in an exciting research project run by the NSW Commission for Children and Young People and the NSW Mental Health Commission entitled Supporting Your Friends. This research will explore the barriers to young people accessing adult assistance when they become aware of issues in peers, friends or family.

This involvement is limited to a select number of Stage 5 students (Years 9-10) who have been asked to complete an online survey. Once permission has been granted by parents or carers the students will complete the survey. This information will remain anonymous but will be collated into data collected from all over the state from a group of randomly chosen students.

If your child has been selected please complete and return the permission slip at your earliest convenience. This is a worthwhile research project and we would appreciate their involvement.
YEAR 8 NEWS

Wow! One term to go in Year 8 and even scarier is the fact that over 1/3 of their high school career has passed! I was pleased to present many students with their Gold and Platinum awards. They have been involved in many activities this term, including debating, tournament of the minds, peer leadership, SRC volunteering, and of course the sporting teams. Many students are demonstrating the values of the school in doing their best.

Most recently, I joined the Enterprise Skills Program team on the Swan’s Crossing day. It was enjoyable to watch the teams meld to gain the goal of getting their egg back intact to base camp, after making their stretcher and carrying the luggage and the egg on a predetermined trail. They also had to make their own shelter from their stretcher, and then cook their lunch using their frame.

Out on the track, it was interesting to see which groups managed to a) keep their map and b) be able to read it, to find their way back. Not all succeeded!

I remind all that final exams begin in week 3 and that studying should be commencing, if not already. Any parent who is not already on my email distribution list, and wish to do so, is invited to let me know.

The Year 9 Gold Coast trip 2014 is just over 52 weeks away – hopefully students have started saving.

Have a happy and safe holiday

Merelyn Devine
Students at the Manning Valley Learning Centre or the MVLC as its known come together each week. They spend up to three hours in Tuesday tutoring sessions to support them to complete their Distance Education Coursework.

Student Nicholas Northam, always the first in the door at 1pm, has participated in English, Mathematics and Geography tutoring while also trying his hand out at totem tennis. He is our resident ‘Tech Expert’, solving any technical issues the MVLC group has with computers, printers or Ipads. Daniel Barker is the newest member of our group having already taken a liking to our lounge and relaxed learning environment while churning out some excellent writing for his very first English Title Page.

Intensive tutoring, cooking spaghetti bolognaise, creating artworks and making cake pops are just some of the up and coming events at the MVLC that operates each Tuesday between 1 and 3pm at 38 Albert Street in Taree.

If you are a full time Distance Education student in the Taree area and would like to know more about how you can receive support once a week to complete your coursework contact Mrs Holland on 02 65568166.
“Distance Education is like a second opportunity to engage in education outside the school setting if you have mucked it up”, claims Year 11 DE student Joel Kingdom from the Cessnock District Learning Centre. Joel’s Support Centre Teacher, Leon Schmeider, engages around eight students at the centre. With the use of a smart board and the internet Leon encourages the students to become active leaners who ask questions and seek answers using tools from their digital world. Leon works with Camden Haven High School Distance Education teachers to modify learning materials and assists students to reach their full potential in their DE studies.

If you live in the Cessnock area and are interested in gaining support to achieve your best with your DE coursework then contact Katrina Navan or Cassandra Holland on 6556 8201 to enquire about your eligibility to attend this centre.

CASEY WOODERSON

Casey Wooderson (Year 8) is studying DE CHHS as a vocationally talented student. Casey is a tournament water skier - her specialised events are tricks, jumps and slalom. She is currently spending three months training and competing in Orlando, Florida in the US. As well as working hard to stay focused on her school studies she is scoring personal bests on the water. Good luck Casey!
CAREERS NEWS

In this newsletter, I’d like to make everyone aware of a number of current opportunities – most are targeted at Year 12, however the PMHC apprenticeships may well suit Years 10 and 11 as well.

C.A.S Hawker Scholarship

Living away from home to attend university can be very expensive. The C.A.S Hawker Scholarship is a residential scholarship and as such goes towards the cost of accommodation and is aimed at students intending to enrol at a number of Australian Universities (University of New England and the Australian National University being the closest to us). Valued at up to $45,000 over 3 years it is based mainly on personal qualities and demonstrated leadership, as well as academic ability.

For full details, see: www.hawkerscholarship.org

Hastings Education Fund

This is a local organisation that administers grants to assist school leavers with achieving their post school education and training goals. These grants may be to assist with the costs of university, TAFE or other education and training endeavours. Students interested in this can see me in the Careers office or Garry Wykes (Deputy Principal) for an application form.

Laurieton United Servicemen’s Club Traineeship:

Each year, the Laurieton United Servicemen’s Club offers a 1 year Traineeship to graduating year 12 student. This is in the area of office administration and will again be available for 2014. Students interested in this opportunity will need to submit their resume to me (in the Careers office) by 3.30pm on Tuesday September 17. Depending on the number of applicants, students may need to make themselves available for an interview on Friday September 19.

Hastings Council Apprenticeships

Port Macquarie Hastings Council have apprenticeship opportunities available to start in 2014. These are in the areas of:

- Electrical
- Mechanical
- Electronics and Communications (Telemetry)

Applications will close on September 22.

Mr Dave Gray

Careers Adviser
SCHOOL HOLIDAY FUN THANKS TO COUNCIL

Thursday 12 September, 2013

Port Macquarie-Hastings Council will help ensure there’s plenty on offer across the region these coming September/October school holidays.

At Laurieton Library, there will be a special story time and craft session on Wednesday, September 25, between 10.30am and 11.30am.

Children of all ages are being encouraged to take along their Grandma or Grandpa, Nanna or Pop to share in a morning of stories, craft and games.

The Laurieton Library is located in Laurie Street, Laurieton and is open Monday to Friday 9.30am-5pm and Saturdays 9am-12 noon.

Over the two weeks of the holidays the library will also have a giant jigsaw to solve and plenty of board games to keep the children entertained.

There will also be plenty of creative fun at the Glasshouse in Port Macquarie.

On Monday, September 30, children between the ages of 3 and 5 will have great fun making monkey masks and going a little ‘bananas’ as part of a fun Monkey Madness creative class between 10am and 11am costing just $10.

On Tuesday, October 1, it will be time for the 6-12 years to get involved, with a wonderful opportunity to create amazing sculptures inspired by Kathy Temin’s sculptural fur ‘Black Gardens’, currently on exhibition in the Glasshouse Regional Gallery. The two-hour session will run from 10am to 12 noon at a cost of $15 per student.

On Wednesday, October 2, students will be encouraged to seek inspiration from another artist exhibiting at the Glasshouse Regional Gallery, Daniel Boyd and to create images using lots of different spots in the ‘pointillism’ style of the great masters. The class runs from 10am-12 noon for 6-12 year olds at a cost of $15 per student.

On Thursday, October 3, children will have the opportunity to create their own snow dome cities using plastic objects and recycled bits and bobs while on Friday, October 4 it will be time to create some funky tie dye t-shirts. Both of these workshops are aimed at 6 to 12 years and will run from 10am to 12 noon. The cost will be $15 per child. Those children taking part in the tie dye workshop will also need to take along at least one cotton t-shirt or other coloured shirts.

Moonlight Movies will also be making a return to the Port Macquarie-Hastings region over the school holiday period.

Executive Services, Port Macquarie-Hastings Council
