PRINCIPAL’S MESSAGE

Term 2 has been very busy with students and staff involved in a wide variety of activities. Students have participated in various sporting events; both individual and team. Many students have enjoyed success, with some looking forward to competing in state finals after the vacation. Year 11 students have been supporting our local primary schools in the running of their school athletics carnivals, which assists our students in developing their skills and competencies and strengthens our ties with our local schools. Public speaking, bridge building and robotics have also been taking place throughout the term as well as examinations being completed in Years 7 to 11 with many reports being finalised this week. The Southern Network Dance Festival was held last week, and a most successful event it was. I would like to congratulate all the students whose performances were fantastic, polished and professional and thank all the staff and students who managed the event and supported the performers. Well done to all involved.

Our Captains, Dale Finch and Erica Johnson, travelled to Sydney with Mrs Livingston and along with the Captains from all schools across the state they met the Governor, Maree Bashir. It was a great experience and opportunity to meet with peers and find out about other schools.

The NAIDOC Week celebrations held this week were most successful. The Welcome to Country by Uncle Bill O’Brien was very moving as he spoke of the wonders of our land and the opportunities available to all of us in this great nation. The Manning Garden Dancers were a highlight of the celebrations. Some of our students learned “the pipi dance”; their efforts were appreciated by the audience. Students and staff enjoyed the performances and the experience of tasting bush tucker foods. Face art was also very popular. The day provided a brief snapshot into indigenous culture. Thank you and well done to the Junior AECG, SRC and staff who supported the day.

I would like to wish all students a safe and happy vacation with a reminder that school resumes for students on Tuesday 15 July.

24/7 Year 11 2015 Faculty Displays Future Options Expo
25/7 HSC Music 1 Study Day
Year 7 language students, Indonesian teacher Mr Rourke and Year 10 music students were treated to music and dance workshops by the master Balinese multi-instrumentalist, Made Denis on 11 and 12 June.

The Year 7 students learnt to play angklung, traditional Indonesian instruments made from bamboo. They then had great fun learning Kecak, a percussive chant /dance which is often performed in Bali and depicts the epic story of Sita and Rama from the Ramayana.

The Year 7 Indonesian class also had the opportunity to team up with Mr Richardson’s Year 10 music class, who are studying music from other cultures. Made demonstrated his skill on a range of Gamelan instruments, which comprise mostly of metal percussive instruments struck with mallets. It was then over to the students to have a try, and 9 brave volunteers successfully played a traditional Balinese piece as an ensemble.

These workshops were presented by the Australian Indonesian Arts Alliance (www.aiaa.org.au), supported by the NSW Department of Education and Communities, and were offered free to schools that conduct an Indonesian language program.
The Industrial Arts faculty recently hosted a weekend workshop attended by teachers from Westport, Wingham and Gloucester High Schools and Great Lakes College Senior Campus. The focus of the weekend was on building the skills in using CREO, a 3D drawing software package which is available free to schools whose teachers undertake the certified training. Peter and Ruth Thompson, working on behalf of IITATE, (Institute of Industrial Arts and Technology Education) delivered the 12 hour course.

Creo is a state of the art software package which CHHS is using to produce drawings which can be saved as STL files and then exported directly to the school’s 3D printer. The object drawn and rendered in Creo is then printed. The 3D printer was purchased with assistance from the P&C and Graphics teacher, Mr Rob Newell. Mr Newell has introduced the program to his Years 8, 9 and 10 students this year. The results have been impressive, with students quickly picking up the skills required to produce complex drawings.

CHHS students are getting valuable first-hand experience in emerging technologies, not just through Creo and the 3D printer but also through a strong Robotics program which includes our local primary schools.

As a part of their Robotics course in Years 9 and 10, students run the Rotary sponsored robotics competition. This course is designed to develop programming and team work skills in both the primary and secondary students through the use of Lego Mindstorms NXT kits. Laurieton Rotary Club has supported the competition through the purchase of a number of the Mindstorms NXT robot kits. Now in its second year, participating primary schools are given a kit for several weeks to practice with, before a competition day at the high school.

The winning primary school, along with the CHHS Robotics team, then attend the First Lego League competition held at Macquarie University in Sydney.

YEAR 8 ENTERPRISE SKILLS PROGRAM (ESP)

One of the Year 8 ESP classes is participating in a not for profit enterprise. We are sending packages full of recycled stationery, toys, work books and novels to a developing country for children and communities in need. Our class needs your help please. We would appreciate anyone who can donate any of these types of goods. There is a box outside the front office that you are able to place items in.

Your help will be greatly appreciated.

Thank you
Jedd and Leah
The second annual Rotary Camden Haven Community of Schools Robotics Competition has been won by one of the smallest schools in the Camden Haven - Hannam Vale.

The competition was run over five weeks by the CHHS Robotics Team, with the financial support of Laurieton Rotary Club. Each school is given a robot to use for the duration. The competition begins with a full day introduction and teams are then supported in their own schools by mentor visits from high school students. The competition day brings all the teams back to the high school.

The competition consists of three parts - a task section, technical judging and a drag race. The educational outcomes are extensive. The tasks test students’ design and programming skills in performing dexterity tasks like picking up and delivering objects. The technical judging is a presentation to two judges regarding the design process and efficiency of the final robot. After these two sections there was nothing in it - North Haven was on 161 and Laurieton on 158. However the last section again proved decisive. The key challenge is to get the robot to run straight over the seven metre course. Only one team was able to achieve this was Hannam Vale. Their prize is entry into the State Competition in November worth $375. Much thanks to Rotary for assisting with the initial purchase of robots, and ongoing support in terms of prizes.

SCHOOL CUP
Camden house have once again proved too strong for the other houses in term two. With a very busy term including the Athletics Carnival (won by Haven house) and Cross Country Carnival (won by Watson house) there were plenty of points available to everyone.

It continues to impress staff the number of students involved in so many co-curricular activities, broadening their experiences as well as earning valuable points for their house.

Be reminded that students and parents can access their student’s positive points at any time through the student millennium portal. Students were given information about this at the beginning of term. This should encourage students to keep on earning positive points and aim for the highest.

The top 25 point earners in the Camden house in term two went to Port Macquarie Wave bowl as a reward for their ongoing success.

Congratulations to the Camden house and good luck to all the other houses. Fingers crossed we see a change at the top next term (just to make it interesting!).
Earlier this term Year 12 Food Technology class visited Oasis By The River Restaurant at North Haven as part of their studies on food product development and the Australian Food Industry. Brendon Lynch, chef/owner, and his staff were very generous hosts providing details about menu development, sourcing local produce, job roles and restaurant operations. Students enjoyed a meal and were delighted with the complimentary desserts. We thank this local business for supporting learning at Camden Haven High School.

The Year 12 Food Technology class and teacher Ms Graham recently went to Ricardoes (http://ricardoes.com), local producer of hydroponic tomatoes and strawberries, to research the business. This is part of their current studies about the Australian Food Industry. Students were taken on a tour of the hothouses and were lucky to be given an informative talk about the production systems and related issues. They enjoyed the opportunity to pick organic strawberries, peruse the many value added products (made locally) in the shop and taste the famous strawberry jam with scones at the cafe.

We thank Anthony from Ricardoes for welcoming us and the time he spent to ensure students gathered the information needed to write their reports.
BARISTA TRAINING

Eleven Year 12 students attended a two day accredited barista course at the Tuncurry TAFE campus recently gaining valuable learning experiences and useful employment skills. Students learnt the art and science of making the full range of coffees available in all our favourite cafés under the expert guide of qualified adult educators.

Students were tested on theory and a demanding practical examination making flat whites, macchiatos, doppio lattes and more. Our students performed well under pressure and are now more than capable of walking into professional barista employment.

LIBRARY NEWS

Students enrolled in the 2014 Premier’s Reading Challenge are reminded that the challenge must be completed by the end of August. When school returns next term you will have only six weeks to complete the reading and get the certification done. Check with Mrs Rienstra if you are on track to gain your Certificate for 2014.

Matthew Lin, artist, designer and illustrator is coming to Port Macquarie Library during the school holidays. If you would like to attend the workshop which will be held on Wednesday 9 July at Port Macquarie Library Meeting Room from 10am to 12 noon you will need to telephone the Port Macquarie Library on 6581 8755. The cost is $5.
On 18 and 19 June, CHHS was inundated with an extra 1100 primary and secondary students. These students were from the Camden Haven, Hastings and Macleay areas and were performing at the Southern Network Dance Festival. This is a non-competitive, all inclusive showcase of our public schools in the area of dance. CHHS were well represented with six items over the two day festival. The Year 9 Dance elective class made their performance debut, opening the festival with their item ‘Military Precision’. Our Year 10 elective class had two items. ‘Fire’ was a beautiful contemporary routine and ‘Cops ‘n’ Robbers’ was a hip hop dance, choreographed largely by the students. The Camden Haven Dance Ensemble performed their energetic and colourful dance routine ‘Do your thing’ choreographed by Miss Webber. The CHHS Dance Company also had two works in the Festival. ‘A Little Party’ was choreographed by relieving dance teacher Miss Midson. The show concluded with ‘Magnets’ which communicated the idea of repelling and attracting. ‘Magnets’ is being auditioned for possible inclusion in the NSW State Dance Festival, where the best of the best of items from all of the regionals festivals across NSW are showcased. We wish them luck with this! Organising a large event such as this does not happen without a fantastic, hardworking team. A big thank you to Ms Waite, Ms Graham and Mrs Elford for making the ‘Fire’ and ‘Magnets’ costumes. Thank you to Mr Dick for his organisation at the school. Mr Bradney and his team deserve a special mention for organising the parking at the event. Thank you to the canteen for feeding the masses. And finally, thank you to all of the staff, parents and friends who assisted in some way and supported our students. They all had a fantastic time, behaved impeccably and represented the school with pride.

Mrs Livingston - Dance Teacher
Secondary education in NSW has undergone some major reforms over the last decade. The most engaging of these has been the development of teaching partnerships between local business and the school. With the advent of School Based Traineeships and competency-based assessment, students have been able to combine their HSC study with on-the-job training. By working together as a community team, business, TAFE, private providers, group training organisations, and the school have been able to engage senior students in career pathways and future direction besides just doing well in the HSC. Camden Haven High School is at the forefront of this state-wide initiative.

The School Based Traineeship program partners students with a local business in an industry they are interested in pursuing after school. Students are required to participate in work experience, usually in Year 10 or early Year 11, to determine if they are suitable for that industry and employer. Once all requirements are met, students are then employed over the two years of senior schooling for one day a week and some of the school holidays, where on-the-job training takes place. Certificate II and III is also concurrently studied at either school, TAFE or a private provider. This is a vital part of the traineeship with both the employer and the course provider working in partnership.

CHHS has an excellent trainee program which has been running for the last five years. Its success is demonstrated by the number of students who continue to be involved in the program, and by the number of students who gain employment in their chosen industry after the HSC. Our school is the largest Vocational Education and School Based Traineeship provider of all government schools in the region. At CHHS students are able to mix their traineeships with all other HSC courses and are also able to gain an ATAR and are further supported by studying a course called ‘Industry Based Learning’ as part of their HSC pattern.

The current Year 12 cohort has six school-based trainees across three industries. They will complete their AQF qualifications as well as their HSC by the end of Term 3 2014. There have also been a number of the Year 12 cohort who have left for further study and employment, indicating the success of this program. Increasing realization of the program’s value is reflected in the Year 11 cohort where nine students have recently signed up in six different industries.
These are listed below.

The outcome of the program relies on the partnership between the school, the employer, the student and the training organisation. CHHS wishes all these students success in their endeavours, and extends a thank you to all participating businesses.

For further details and Student Expression of Interest forms at CHHS for 2015, contact Mr Hamilton - School Based Traineeship Coordinator.
Thank you for all your support on our extra-ordinary out of uniform day for Curtis Landers. All the money raised goes to Curtis to assist in his rehabilitation.

The SRC supported the junior AECG for NAIDOC Celebration this week. We had a great day with BBQ crocodile and kangaroo. We were also entertained by the Aboriginal Dancers from Manning Garden Public School and Didgeridoo player Steve Donovan taught us all a fun dance.

The SRC has been selling warm milos on Monday and Wednesdays at recess. This has been greatly supported by the student body and we hope that you all enjoy this.

Upcoming events for term 3 – put a note in your diary!!

- School Captains and SRC elections
- ‘Say No to Domestic Violence’ out of uniform day – Thursday 14th August
- Whole school social – Year 12’s last!! – Thursday 28th August 6 – 9 pm. We will let you know the theme as soon as Year 12 votes on one!
- Luminosity Youth Summit 16 – 18 July in Port Macquarie

Thank you all for supporting your SRC. We are here to make the students of CHHS enjoy their time at school as much as possible.

Have a happy and enjoyable holiday.
It was great to work with FT student “Betty” (not her real name) this week. She is completing Mathematics 5.1 course in Year 10 via Distance Education. Prior to enrolling in DE, Betty’s history in study of mathematics is punctuated by some high points of success, but also many, many perceived failures. Betty is certainly an inherently good-natured young person with an engaging and enthusiastic personality, but mathematics is neither her strongest subject, nor a subject she approaches confidently.

Over an extended period of working together, we have built a solid educational partnership in a sense, based on the 3 “R’s” or Distance Education - those being of course “relationships, relationships, and relationships”. I am sure Betty is much more confident when confronted with challenges in mathematics, and much more willing to embrace new concepts with a view to meeting the challenge they present.

This week, Betty and I worked with Google Docs, which let us both work on the one document over the internet at the same time. Remember our subject is mathematics so there were equations and mathematical symbols involved; the exercise was significantly technical from that viewpoint.

I had the document open on my computer, and Betty had the document open on her ipad. She was comfortable using the ipad with its familiar interface. She was able to connect to, and interact with the document in a short timeframe.

I had established a telephone link with Betty via her landline, and then via her mobile phone when the portable landline handset ran out of battery. So we were also able to speak about the content of the lesson, and the peculiarities of the “Google Docs” document.

What I found most poignant was when I heard on the phone that Betty’s mother had come into the room towards the end of the lesson. Betty was so proud in insisting mum come and see how we were working together for the lesson. Mum was obviously so taken by the interactive nature of the lesson that she asked if she could have a turn...

Imagine my surprise when Betty said “No - this is MY maths - I’m doing it !!!”

Talk about an “about-face” - I am so happy to realise Betty was so engaged in school work that once terrified her. So that’s the feel-good story I take into the term break.

Distance Education is really making a difference.

Mr Squires
YEAR 9 FUNDRAISING OPPORTUNITY

Mrs Devine has organised a Father’s Day Raffle, with first prize being dinner for two at Oasis Restaurant to the value of $100.

To help it be a great raffle we would still like some more donations to assist with this. Can you help out? Mr Devine is going to offer a box of mandarins!

Tickets will be available next term. Students who wish to raise funds for themselves only need to see Mrs Devine to get $50 worth of tickets to sell. Then they can come back for more if these are sold.

This will be the final fundraising opportunity for students.

To assist with budgeting, please pay at least $450 by the middle of term III. If it is left too long, the amount of monies becomes too great and kids have to withdraw from the camp.

PARENT INFORMATION EVENING

Date: July 17 2014 (Thursday - Week 1 Term 3)
Venue: Staff Common Room at Camden Haven High School
Time: 6.00 to 7.00

Agenda – The HSC and Senior Years of Schooling at CHHS

The purpose of this evening is to provide parents/caregivers with information about the senior years of schooling at Camden Haven High school. This information will enable you to effectively assist and encourage your children to make informed choices that best suit their future goals.

Additional Resources for parents and students:
www.boardofstudies.nsw.edu.au

WILLIAMTOWN RAAF BASE

From Monday 23 June to Wednesday 25 June I, with a number of other Careers Advisors, had the privilege of visiting RAAF Base Williamtown near Newcastle. Initial briefing by Squadron leader, Adrian Maso, was a fascinating interaction and the message was that there is a need for better candidates. Squadron Leader Maso expressed his intention to work with Careers Advisor to achieve this objective.

RAAF Base Williamtown is the home base for the tactical fighter element of the Air Combat Group (ACG) and the Airborne Early Warning and Control (AEW&C) element of Surveillance and Reconnaissance Group (SRG). The following squadrons are based at Williamtown:

The Highlights of the program for me were the Hornets, 3 Squadron AEW&C Wedgetail aircraft and the dog branch of the ‘Base’ security section.

No 452 Squadron (452SQN) Williamtown Flight
No 3 Squadron (3SQN) operating F/A-18 Hornet aircraft
No 77 Squadron (77SQN) operating F/A-18 Hornet aircraft
No 2 Operational Conversion Unit (2OCU) operating F/A-18 Hornet aircraft
No 76 Squadron (76SQN) operating Hawk Mk127 aircraft
No 4 Squadron (4SQN) operating PC-9/A Forward Air Control aircraft
No 2 Squadron (2SQN) operating AEW&C Wedgetail aircraft
No 2 Expeditionary Health Squadron
1 CCS (Combat Support Squadron) Detachment Williamtown
No 453 Squadron (453SQN) Headquarters

Day 1

0820 - 1100 No 3 Squadron – Briefing from Squadron Leader Adrian Maso about the role of how fast jets protect Australia and the various technical maintenance and support roles.
Wednesday morning No 2 Squadron – roles in operation of the aircraft including Pilot, plus the technical maintenance and support roles at an Air Force Squadron.
1110 – 1140 Fire Section – learn about fire support to the Air Base, and view a Panther Fire Vehicle.
1145 – 1245 Lunch at Airman’s Mess – Selected Air Force personnel will be on hand to discuss aspects of their role and lifestyle.
1300 – 1400 Chaplains and Defence Community Organisation – learn about pastoral care and Family support available to Air Force members and their families.

1415 – 1515 Military Working Dog Section – learn about the role of a military working dog handler and watch a military working dog demonstration.

**Day 2**

0900 – 1000 Mechanical Equipment Operations and Maintenance Section – learn about vehicle maintenance and supply support roles at this base support unit

1015 – 1045 Physical Fitness Instructors – learn about Air Force fitness, and facilities available to Air Force personnel

1100 – 1130 Accommodation – Walk through an accommodation block as an example of On-base living accommodation available

As a result of our learning on this tour, and the needs expressed by Defence Force Recruiting I will be in a position to deliver a seminar to any prospective candidates wishing to become a Defence Force Member. To improve the likelihood of success, a detailed plan and schedule should be developed and I feel I am now in a position to assist students in this important task.

I will have more details early next term and possible excursion opportunities to inspect RAAF assets.

Mr Dickinson
Congratulations to all who participated in the recent Athletics Carnival and a HUGE thank you to the staff who made it run as smooth as clock work. Because of the increased participation, we needed to complete some of the events on the Friday afternoon, so well done again to all the students for making it such a wonderful carnival.

House results:
Haven 1st - 2527 points    Camden 2nd - 2443 points
Taylor 3rd - 2349 points  Watson 4th - 2288 points

Our age champions were:
12 yrs - Dakota Bonney and Caleb Moss
13 yrs - Marni Budai and Kaine Cafe
14 yrs - Kylie Thompson and Grant Gardner
15 yrs - Jasmine Van Wyck and Anthony Owers
16 yrs - Emily Stevens Seers and Troy Wilkinson
Opens - Courtney Hanlon and Tainga Savage
ZONE ATHLETICS

Great weather, excellent participation and tremendous spirit were all on show last Friday for the Zone Athletics Carnival at Nambucca Heads. Over fifty CHHS students achieved outstanding efforts of athleticism and sportsmanship. Everyone present embraced what turned out to be a fantastic community day.

The scene was set early in the 800m events, which more resembled a fun run than a track event due to the numbers of students who took part. This continued throughout the day with the seniors leading the way showing that being active and involved is what the day is all about.

Huge congratulations to all students who were able to complete their events in such a safe, respectable and responsible manner.

And, last but not least, many thanks to our staff - Mr Northey, Mrs Bernasconi, Mrs Hicks and Ms Edge for their enthusiasm and constant support of all participants.

Mr Dalton - Sports Organiser

Tick eHealth off your parent ‘to do’ list

As a busy parent, juggling the needs of your children with a hundred other tasks, remembering your family’s health information can be a challenge. Registering for an eHealth record is a simple, secure way for you to manage and track your family’s health. With an eHealth record you and your child’s health providers will be able to access their health information when it is needed, even if they get sick in the middle of the night.

Australians can now choose to register themselves and their children for an eHealth record. The National Personally Controlled Electronic Health (eHealth) Record system, developed by the Australian Government, is an online system designed to make it easier for you to track and manage your children’s healthcare. It provides participating healthcare professionals treating you and your children with better and faster access to your important health information.

Access whenever and wherever you need it
Currently, health records are either paper based or stored in different places and systems so doctors and nurses often have to spend time chasing paperwork. An eHealth record brings together a summary of your and your child’s key medical information, drawn from records already held in different parts of Australia’s healthcare system. Having an eHealth record means you can access your health information online, whenever and wherever you need it. You can also share this information with healthcare professionals you authorise. It won’t matter how many doctors you and your child see; if you give them permission they will all be able to view the same health information.

This means that you or your healthcare professionals will be able to see an up-to-date summary of your child’s medical information straight away, helping your child to get the care they need more quickly. “Registering was so simple,” said Amanda, mum of two, “I did it online and it only took around 10 minutes. Now I have access to both my children’s eHealth records.” The eHealth record stores key health information such as allergies, current medications, immunisations records, details of recent medical history and any previous adverse reactions to treatments. “It is so useful and one less thing to worry about. Now I know that my children’s medical information is all online and in one place and I can access it at any time”, Amanda said.

Safe and secure
Records are protected by strong security and privacy safeguards to prevent any unauthorised access; so you know that all your family’s health information is safe and secure. You will be able to access you and your child’s records using a secure password and login.

Going mobile
The eHealth record is now mobile; if your child has an eHealth record you can download a free app onto your iPhone or Android phone which allows you to view and add information to your child’s eHealth record when you are on the go. The child’s eHealth record mobile app lets parents view a range of information such as growth charts and reminders about health checks and immunisations. Ellie’s mum, Hannah, said “I love having my daughter’s information on my phone. It was so useful having her immunisation information to hand when I registered her for daycare rather than remembering where it was all written down, or requesting it from her GP.”

Getting bigger everyday
The eHealth record system is continuing to grow as more healthcare professionals across Australia register and contribute to the system. Medicare Locals are working with health professionals to assist them in being ready to access the eHealth record system and support their patients in adding key medical information into their eHealth records. The Medicare Locals are also out and about, informing the public about the eHealth record system and providing assistance to help people register.

Registration is easy
If your child is under 18, you have parental responsibility for them and they are on your Medicare Card you can register them for an eHealth record. Registration is easy and you can do it in a variety of ways:
- At your next GP appointment ask if they are set up with the facilities to assist you with registering.
- Online by visiting www.ehealth.gov.au
- By phone 1800 723 471
- In person, by visiting your local Medicare Australia Service Centre
- In writing, by completing the registration application form available from Medicare Australia Service Centres or from www.ehealth.gov.au.

For more information visit the eHealth website at www.ehealth.gov.au

Story provided by Central Coast NSW Medicare Local and Hunter Medicare Local
Learning and fun outdoors!

Looking for a fun and healthy school holiday activity that won’t break the bank? Get your kids off the couch and unhooked from the iPad with a Sport and Recreation Centre holiday program.

Sport and Recreation Centres are government-run facilities. These overnight and day adventures are offered in great Australian bush and coastline locations for kids aged 5 to 16.

See your child blossom

Our programs use challenging, adventurous activities to help kids develop independence, self-esteem and social skills.

Under the supervision of friendly and qualified staff, conquering these age-appropriate challenges can help kids develop confidence as they master new skills and make new friends.

Our affordable school holiday packages include all activities, accommodation, nutritious meals and 24-hour supervision. Supervised transport is also available to and from most camps.

Sport and Recreation Centres: getting kids active outdoors for over 60 years.
Our friendly staff are always ready to help with your booking and answer any questions. We recommend you book as early as you can to ensure your child doesn’t miss out.

Tel: 13 13 02    Language assistance phone: 13 14 50
Email: sportrec@communities.nsw.gov.au

For full details including program descriptions, head to our website at www.dsr.nsw.gov.au/kidscamps. Please note, age restrictions do apply for some activities.

### Introducing online enrolments

Your enrolment can be submitted online 24/7! Enrolments close on the Monday one week prior to camp. Book early to avoid disappointment.

### How to enrol

Call 13 13 02 to book and pay over the phone, or submit your enrolment with full payment online.
